

HOW TO FACEBOOK

On a computer

If you want to use facebook on your computer you can go to www.facebook.com to sign up.

1. Type Facebook into your internet browser (Google, Microsoft Edge, Mozilla Firefox etc)
2. Press on the top search called 'Facebook – log in or sign up'

Create an account
It's quick and easy.

By clicking Sign Up, you agree to our [Terms](#). Learn how we collect, use and share your data in our [Data Policy](#) and how we use cookies and similar technology in our [Cookie Policy](#). You may receive SMS notifications from us and can opt out at any time.

Sign Up

Create a [Page](#) for a celebrity, band or business.

3. Next create an account by filling in the 'create a new account' section and press the 'Sign up' button (see below)

4. When you have pressed 'Sign up' you will be asked to enter the code from your email. This is just a verification step, so check you email account and put in the number from Facebook.

Enter Security Code

Please check your email for a message with your code. Your code is 6 digits long.

Enter code

We sent your code to:

5. Next it will welcome you to Facebook and ask you to upload a profile picture. You can add one of yourself, or even a more general picture.

6. Underneath this, they will suggest you to 'find people you know'. Skip this step as you can do this later on.

7. Afterwards, press on the button that says 'take a privacy tour', which shows you what the different settings mean.

8. Skip the 'search your email for friends already on Facebook' suggestion. Again, you can do this later.

9. You will now have a profile set up and ready to go. You can edit your personal details by pressing on the 'about' tab and filling in the information (you can put as much or as little info as you want on here).
